Category:		**Estimated time:**	0.00 hour
Target version:			

Description

In the current Elsteel Library, users within the future access group can still view outdated documents. These documents should be hidden from regular users.

History

#1 - 08/05/2025 08:51 AM - Malith Batugedara

- Status changed from New to In Progress

#2 - 08/11/2025 05:52 AM - Malith Batugedara

Now previous document access group set to "outdated document viewers" automatically when new revision published. But in manage access of each outdated document have to remove previous teams group and add only "outdated document viewers" related users only.
