

Elsteel Library - Feature #2251

"Print" or "Download" options block for some specific documents

07/28/2025 04:04 AM - Malith Batugedara

Status:	Paused	Start date:	07/28/2025
Priority:	Normal	Due date:	
Assignee:	Malith Batugedara	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Some specific documents require a view-only option. There should be a way to block the 'Download' and 'Print' options for these documents. A document property (e.g., a 'Can't Download' checkbox) should be set before approval or after approval.			

History

#1 - 08/14/2025 09:45 AM - Malith Batugedara

- Status changed from New to In Progress

#2 - 08/14/2025 09:50 AM - Malith Batugedara

The Elsteel Library manual should be updated to include the flow for achieving this

#3 - 08/14/2025 10:55 AM - Malith Batugedara

In the Manage Access area of each document, we can set up access for Teams group members or other users for final and published documents.

#4 - 09/04/2025 09:22 AM - Andres Galavis

Please add the instructions to the library manual.

#5 - 10/27/2025 12:49 PM - Malith Batugedara

For a draft documents, creator , department owner , editors and admins only can see documents. Because of that we don't need to block. Normal users can't see those documents. When publishing document access group users will have view access. We can't set in that point can't download option in the flow it's doesn't support. Because of this after publish document we have to manually set the access level for the required documents.

#6 - 02/11/2026 08:58 AM - Malith Batugedara

we can use restricted access group for limit access

#7 - 02/11/2026 08:58 AM - Malith Batugedara

- Status changed from In Progress to Paused

#8 - 02/11/2026 10:03 AM - Andres Galavis

I don't think using the restricted access group is a good option because the idea is to keep the access group while still limiting the download and print options. The restricted access group forces us to manually grant permission to everyone who needs to access the file

#9 - 02/11/2026 10:08 AM - Malith Batugedara

Then for selected documents we can manually changes view->can't download access for access group
